My first L^AT_EX document! Yeay!

1 Introduction

This will be the intro

1.1 First part of introduction

2 Typesetting

2.1 Exercise 2

This is my **introduction**, I want to tell you something really, really, really, really incredible.

My article is AMAZING.

It's great, just great.

*Believe me, we're going to make the **TEREC** great again!*

2.2 Exercise 3

1. Wybouw/Bonte retreat 2024

- Where?
 - Near Chimay!
 - Rue du Calvaire 2, Rance
- When?
 - Monday 23th to Friday 27th of September

2. Planned activities

- * Scientific sessions
 - Lab day part 1 & 2
 - This L^AT_EX coding club!
 - ... and much more!
- * Fun activities
 - Hiking or Parcours
 - Visit to Chimay abbey
 - Moth trapping
 - Quiz
 - ... and much more!

3 Maths

3.1 Exercise 4

...equation 1 was used to calculate this metric.

$$K = \sum_{i=0}^{i=n} \frac{\sqrt{\alpha}}{\delta_{ij}} \quad (1)$$

4 Tables & Figures

4.1 Exercise 5

City	Year		
	2006	2007	2008
London	45.000	46.000	51.000
Berlin	35.000	33.000	30.000
Paris	50.000	51.000	52.000

4.2 Exercise 6

Figure 1: What an amazing digger wasp!

5 References

5.1 Exercise 7

Tengö *et al.* mention that a digger wasp needs \pm 12 days to finish a nest cycle, provisioning its single larva with flies (Nielsen, 1945).
